Primary market: Kingdom of Saudi Arabia

SubTrack — Business Plan

Version 1.0 · July 2026

1. Executive Summary

SubTrack is a personal finance management mobile application purpose-built for the Saudi Arabian market. It gives users a single place to track subscriptions, recurring bills, BNPL loans, and savings goals — with optional bank connectivity via the Lean Technologies open-banking API. The app is available in English and Arabic and is optimised for right-to-left layout.

Mission: Eliminate financial blind spots for Saudi consumers by making every recurring charge visible, predictable, and under control.

Stage: MVP launched. Monetised through a freemium model (SubTrack Premium).

2. Problem & Opportunity

The Problem

- The average Saudi household subscribes to 6–10 digital services (streaming, cloud, SaaS) plus recurring utility bills and BNPL instalments.
- Charges are spread across multiple cards and bank accounts, making it easy to forget or double-pay.
- No Arabic-first app addresses subscriptions, bills, AND loans in one place.

Market Opportunity

Metric	Value
Saudi internet users	36 million
Smartphone penetration	98 %
Digital subscription CAGR (MENA)	18 % (2024–2028)
BNPL adoption in KSA	Top 3 globally per capita
Addressable app users (TAM)	~12 million

3. Product Overview

SubTrack is a React Native (Expo) mobile app with an Express/PostgreSQL backend.

4. Business Model

Revenue Streams

1. SubTrack Premium (primary)
 - Monthly: SAR 19.99/month
 - Annual: SAR 149.99/year (37 % saving)
 - Offered via Apple In-App Purchase, Google Play Billing, and direct web checkout
2. Affiliate Referrals (secondary)
 - Cashback/switching offers when users cancel a subscription via the app
 - Estimated SAR 8–15 per conversion
3. B2B White-Label (future — Year 2)
 - Sell a whitelabelled version to Saudi banks and fintech platforms
 - Projected licence fee: SAR 80,000–200,000/year per partner

Unit Economics (Year 1 targets)

Metric	Target
Monthly free users	50,000
Conversion to Premium	6 %
Paying subscribers	3,000
ARPU (blended)	SAR 155/year
Annual Recurring Revenue	SAR 465,000

5. Go-to-Market Strategy

Phase 1 — Seeding (Months 1–3)

- Launch on App Store and Google Play with a 30-day free Premium trial.
- Influencer seeding: 10 Saudi personal-finance creators (YouTube/TikTok/X).
- Target communities: r/saudiarabia, LinkedIn Saudi Finance groups.

Phase 2 — Growth (Months 4–9)

- Performance marketing on Meta and Snapchat (high penetration in KSA).
- Google UAC campaigns targeting "subscription tracker", "BNPL Saudi", "dV5bv1d!A".
- Referral programme: give 1 free month for each friend who subscribes Premium.

Phase 3 — Scale (Months 10–18)

- Partner with Lean Technologies for co-marketing.
- Corporate HR benefit packages (expense tracking for employees).
- Expand to UAE and Bahrain.

6. Competitive Analysis

App	KSA-specific	Arabic RTL	Loans	Bank sync	AI advisor
SubTrack	'	'	'	'	'
Mint / YNAB	'L	'L	Partial	'	'L
Sharafdg Wallet	Partial	'	'L	'L	'L
Spending (generic)	'L	'L	'L	'L	'L

Moat: Lean open-banking integration + Arabic-first UX + Hijri calendar support is a combination no competitor currently offers.

7. Operations & Team

Role	Status
CEO / Product	Founder
Lead Engineer	Founder
Marketing	To hire (Month 3)
Customer Support	Outsourced (Zendesk)
Legal / Compliance	External counsel

Technology Stack

- **Mobile:** React Native (Expo), TypeScript
- **Backend:** Node.js, Express, PostgreSQL (Drizzle ORM)
- **Auth:** JWT + bcrypt
- **Banking:** Lean Technologies API
- **AI:** OpenAI GPT-4o (advisor feature)
- **Hosting:** Cloud VPS (scalable to AWS/GCP)

8. Financial Summary

Funding Ask

Seeking SAR 750,000 (seed round) to fund:

Use of Funds	Amount	%
Marketing & UA	SAR 300,000	40 %
Engineering (2 hires)	SAR 225,000	30 %

Infrastructure & APIs	SAR 112,500	15 %
Legal, compliance, misc	SAR 112,500	15 %

Runway

18 months at current burn rate of ~SAR 41,000/month.

9. Risk Analysis

Risk	Probability	Mitigation
Low Premium conversion	Medium	A/B test pricing; extend trial
Lean API pricing change	Low	Negotiate multi-year contract
SAMA regulatory change	Low	Monitor SAMA sandbox bulletins
App Store fee (30 %)	Certain	Offer direct web subscription at discount
Competition from banks	Medium	Focus on cross-bank view — banks won't build this

10. Milestones

Date	Milestone
Q3 2026	App Store & Play Store launch
Q4 2026	10,000 registered users
Q1 2027	3,000 Premium subscribers
Q2 2027	Break-even on operating costs
