

SubTrack

MARKETING STRATEGY

Go-to-market plan · Audience · Channels · 90-Day Launch

Primary market: Kingdom of Saudi Arabia

July 2026

SubTrack — Marketing Strategy

Version 1.0 · July 2026

1. Marketing Objectives

Objective	6-Month Target	12-Month Target
App downloads	25,000	80,000
Registered users	15,000	50,000
Premium subscribers	600	3,000
Brand awareness (KSA)	5 % unaided recall	12 % unaided recall
App Store rating	"e 4.5 &	"e 4.6 &

2. Target Audience

Primary Segment — "The Overspender" (Ages 22–35)

- Young Saudi professionals and university graduates
- 4–8 active subscriptions (Netflix, Shahid, Spotify, iCloud, STC TV, Adobe...)
- Pays BNPL for electronics / fashion (Tamara, Tabby)
- Pain: "I have no idea how much I spend every month"
- Channels: TikTok, Instagram Reels, Snapchat

Secondary Segment — "The Organiser" (Ages 30–45)

- Family breadwinner managing household finances
- Tracks electricity, water, internet, phone bills
- Concerned about savings goals (Hajj fund, emergency fund, car down payment)
- Pain: "My bills come at different times and I always miss one"
- Channels: YouTube, X (Twitter), LinkedIn

Tertiary Segment — "The Side Hustler" (Ages 25–40)

- Freelancer or SMB owner tracking business subscriptions
- Wants expense reports and CSV export
- Pain: "I need to know what's deductible"
- Channels: LinkedIn, Reddit, productivity communities

3. Brand Positioning

Positioning Statement:

For Saudi residents who lose track of what they pay each month, SubTrack is the only personal finance app that brings subscriptions, bills, and loans into one Arabic-first view — so every riyal is accounted for.

Brand Voice: Clear · Confident · Helpful — never preachy about money.

Visual Identity: Deep purple (#5B4BD5) primary, dark navy backgrounds, white typography. Clean and

premium, not budgeting-app boring.

Tagline (EN): Every riyal, tracked.

Tagline (AR): d6D c JbvD`Â *bÖ* bvDc6Jcv1b'à

4. Channel Strategy

4.1 Organic / Content Marketing

Arabic YouTube (highest priority)

- Weekly 5–8 min videos: "d6Jd *b!-d6E d J bv4b!1bvCbv*d2 'dF4dv1d!)aò
- Collaboration with Saudi personal-finance channels (200K–2M subscribers)
- Goal: 3 sponsored integrations within 90 days of launch

TikTok & Instagram Reels

- Short-form "shock content": "b!/d 9 d60br CdB 4dv1aò" ‡&Pvelation of hidden spend)
- User-generated content: screenshot of dashboard showing first-time totals
- Target: 2 viral posts per month (>100K views)

X / Twitter (Arabic)

- Daily money tips in Arabic
- Thread style: "5 bv4b!1bvCbv* b!/d 9dv' dV,bvFbvK b†-c6'b, 7bvDb,
- Engage personal-finance community (#dV'dFJb!J)

App Store Optimisation (ASO)

- Primary KW (EN): subscription tracker Saudi, bill tracker KSA, expense manager Arabic
- Primary KW (AR): b!*b†9 bvDbv4b!1bvCbv*`Â EcV'c Jd 4dv1d!)`Â Ed!2bvFd!)
- Screenshots in both languages; Arabic screenshots set as primary

4.2 Paid Acquisition

Platform	Budget (Month 1–3)	Budget (Month 4–6)	Format
Meta (IG + FB)	SAR 5,000/mo	SAR 12,000/mo	Video story, carousel
Snapchat	SAR 4,000/mo	SAR 10,000/mo	Full-screen video
Google UAC	SAR 3,000/mo	SAR 8,000/mo	App install
TikTok Ads	SAR 2,000/mo	SAR 6,000/mo	TopView / Spark

Target CPI (Cost per Install): SAR 3–6

Target CAC (Premium): SAR 80–120

4.3 Influencer Marketing

Tier 1 — Macro (1M+ followers): 1 integration per quarter, SAR 25,000–50,000 each

Tier 2 — Mid (100K–1M): 2 per month, SAR 5,000–15,000 each

Tier 3 — Micro (10K–100K): 6 per month, gifted Premium + SAR 500–2,000

Preferred categories: Personal finance, productivity, tech reviews.

Key targets: Mstdfr, Hisab (YouTube), Saudi Finance creators on Snapchat.

4.4 Referral Programme

- **Mechanism:** Share a unique link. Friend downloads + registers !' both get 30 days free Premium.

- **Viral coefficient target:** $K = 0.4$ (each user brings 0.4 new users on average)
- **In-app prompt:** Shown after user's first "insight moment" (e.g. total spend revealed on Analytics screen)

4.5 PR & Partnerships

- **Launch press release** to: Argaam, Aleqtisadiah, Arab News Tech, Wamda
- **Lean Technologies co-marketing:** Joint blog post, shared social content
- **KAUST / university partnerships:** Free Premium for students (acquisition + brand)
- **HR benefit packages:** Pitch to Saudi corporates as employee wellness perk

5. Launch Campaign — "d6E b!/d 9 d 9dF'd¶ "

(How much are you actually paying?)

Concept: A 2-week pre-launch countdown where the app reveals how much the average Saudi spends on subscriptions they forgot about.

Execution:

1. Week -2: Teaser posts with blur/redacted numbers !' "bvDd64d Bc Jb,
2. Week -1: Influencer unboxing of Premium access !' share their own spend total
3. Launch day: Countdown timer on landing page + mass email to waitlist
4. Week +1: User-generated posts with #d6E_b!/d 9 + SAR giveaway (3 × 1-year Premium)

KPI: 5,000 downloads in first 7 days.

6. Retention & Lifecycle Marketing

Lifecycle Stage	Trigger	Action
Onboarding (Day 0–3)	Sign up	Welcome email series (3 emails, Arabic + English)
Activation	First subscription added	In-app celebration + prompt to add more
Engagement	7 days inactive	Push: "dF/d!C d 'b!Hc) d&'böEb' .dF'dB 2 #d!'dR
Conversion	Day 28 (trial end)	Email: Premium offer + 15 % discount code
Churn risk	No login for 14 days	Re-engagement push: new feature highlight
Renewal	7 days before annual renewal	"Year in Review" personalised email

Push notification strategy:

- Renewal reminder: 7 days, 3 days, 1 day before charge
- Monthly spend report: 1st of each month
- Savings goal milestone: when goal reaches 25/50/75/100 %

7. Measurement Framework

KPI	Tool	Review Cadence
Installs & CPI	Adjust / AppsFlyer	Weekly
DAU / MAU	Mixpanel	Daily
Premium conversion rate	Internal DB	Weekly

Churn rate	Stripe / RevenueCat	Monthly
ROAS by channel	Meta Ads Manager	Weekly
ASO keyword ranking	AppFollow	Weekly
NPS	In-app survey	Quarterly

North Star Metric: Monthly Active Premium Users (MAPU)
